SUMMARY

I am a proactive software engineering undergraduate with a strong work ethic and a passion for problem-solving and continuous learning. Experienced in managing team projects and Hackathons, I am committed to delivering my best performance in every task. Self-motivated and eager to explore, I seek opportunities to enhance my skills in software development and teamwork, ready to contribute to the dynamic field of technology.

EXPERIENCE

Esport CSGO Game Manager

Informatics Institute of Technology

- Assigned as the game manager for CSGO, responsible for handling game events and managing related activities.
- Organized and coordinated CSGO events.

EDUCATION

BEng (Hons) Software Engineering

Informatics Institute of Technology

📅 2022 - Present 📍 Colombo 04

The following list is the modules that are currently being taken.

- Mathematics for Computing – 71
- Software Development I (Python) – 83
- Software Development II (Java) – 76
- Trends in Computer Science – 77
- Computer System Fundamentals – 87
- Web Design and Development – 83

Bachelor of Information Technology

University of Colombo

📅 2023 - Present 📍 Colombo 03

PROJECTS

Alducator

3D eLearning platform Group Project

- Led a yearlong group project to develop a 3D eLearning platform from scratch we research, Design and Developed, using React.js for frontend and Node.js for backend.
- Integrated multiple APIs and frameworks like OpenAI and Google model view.
- **Skill Used: React.js, Node.js, MYSQL, ChatGPT API, Google model view API, Express.js, Figma**

UniConnect

Platform for University Students to Connect

- This ongoing project aims to connect university students for assignments, surveys, etc.
- Targets both students and lecturers.
- **Skill Used: Figma, Flutter**

Chatbots

Automated Telegram and whatsapp Bot project

- Developed an automated Telegram bot to perform various tasks.
- Built to deepen knowledge of Node.js and explore creating chatbots on WhatsApp.
- **Skill Used: Python, Node.js, API**

Flutter App

Dice roll Flutter App as a learning project

- Created to enhance understanding of the Flutter framework and mobile app development.
- **Skill Used: Flutter**

FilmFlex.ml

Movie Downloading WordPress Site

- Started to understand and enhance WordPress skills, currently inactive.
- **Skill Used: WordPress**

STRENGTHS

Problem Solving

Effective at tackling complex coding challenges and debugging, enhancing analytical skills.

Communication

Skilled in clear communication with team members and stakeholders to meet project requirements.

Leadership

Demonstrated leadership in guiding team members to successful project completion.

Motivated

Self-driven to continuously learn and adapt to new technologies in software engineering.

Team Player

Collaborative team member contributing to positive team dynamics and achieving common goals.

CERTIFICATION

[React Certification](#) - LinkedIn Learning [CodeSprint](#) - IEEE

[Problem Solving International Hackathon](#) - university of westminster [Tech Triathlon](#) - Rootcode

[Skill Up](#) - Leo Club [GitHub workshop](#)
