

Farhad Lafarie

SOFTWARE ENGINEER | AUTOMATION, INTEGRATIONS & DELIVERY

 [+94 77 635 0933](tel:+94776350933)  Dehiwala 10350, Sri Lanka  farhadlafarie@gmail.com  in/farhad-lafarie  [git/lafarie](https://github.com/git/lafarie)  [portfolio](#)

SUMMARY

Software engineering undergraduate focused on building web and mobile applications and the integrations behind them. Trainee DevOps Engineer at hSenid Mobile Solutions. Work includes Python, Bash, and JavaScript scripting, GitLab CI/CD pipelines, and moving releases through staging into production. Also experience with Next.js, Node.js, and React Native on personal and team projects.

EDUCATION

BENG (HONS) SOFTWARE ENGINEERING	2022 - Present
Informatics Institute of Technology affiliated with University of Westminster, UK	
GCE ADVANCED LEVEL (A/L)	2021
Completed / Passed	
GCE ORDINARY LEVEL (O/L)	2018
Completed / Passed	

EXPERIENCE

TRAINEE DEVOPS ENGINEER	September 2024 - June 2026
hSenid Mobile Solutions Colombo, Sri Lanka	
Maintain GitLab CI/CD pipelines for day-to-day builds and deployments. Fix failed jobs and improve pipeline stages so releases complete more reliably.	
Write Python and Bash scripts to automate repeated operational tasks. Join sprint planning and reviews with developers so platform work matches product needs.	
Run containerized applications with Docker and Kubernetes on AWS. Support production deploys and debug release issues when they occur.	
Maintain Grafana and Sentry dashboards and alerts for production services. Prefer validating changes in staging before production.	
Maintain the Docker build and release path for appiGo Retailer. Adjust Apache configuration when response times are poor. Document deployment steps for the team.	
Skills Used: Docker, Kubernetes, GitLab CI/CD, AWS, Linux, Python, Bash, JavaScript, Grafana, Sentry, Ansible, REST APIs	

PROJECTS

STOREDECK - MERCHANT ADMIN + PUBLIC STOREFRONT	2026
Built a commerce monorepo with Turbo: Next.js merchant admin for staff and a public customer portal. Page layouts are stored as JSON. Staff auth uses Keycloak. Data layer is Prisma with PostgreSQL, multi-tenant shops, and soft deletes.	
Added storefront theme kits, Zod-validated server actions, Redis for cache and rate limits, and Playwright smoke tests across merchant and portal apps.	
Skill Used: Next.js, TypeScript, Turborepo, Prisma, PostgreSQL, Redis, Keycloak, Zod, Playwright	

KAPRUKA AGRA - AI GIFT SHOP ASSISTANT FOR KAPRUKA.COM

2026

Built a chat shopping assistant for Kapruka.com using public MCP tools (search, product details, delivery cities, orders). Streaming agent loop, product cards, cart, and guest checkout payment links. Supports English, Sinhala, and Tanglish. Model backend can use Claude or GPT. Built for the Kapruka Agent Challenge.

Skill Used: Next.js, TypeScript, MCP, Claude / GPT, Tailwind, streaming UI

TICKET PORTAL - EVENT TICKETING PLATFORM (serendisco.rush.lk)

2025 - 2026

With hSenid Mobile Solutions.

Worked on the production ticketing platform for live events (QR tickets and sales). Deployed with Docker and GitLab CI/CD. Multiple events ran on the system with real ticket sales.

Tested purchase, QR validation, and payment flows in staging before event go-live. Built the React Native ticket scanner used at entry ([play store](#)) and published companion apps for Android and iOS.

Skill Used: Next.js, Prisma, PostgreSQL, Docker, GitLab CI/CD, Tailwind CSS, React Native

SHEET NINJA - GITLAB - GOOGLE SHEETS SYNC ([github](https://github.com))

2025

Built a two-way sync tool between GitLab and Google Sheets with multiple connectors, a setup wizard, encrypted credentials, and Docker deployment. Tested sync paths before production use.

Skill Used: Next.js, TypeScript, Prisma, PostgreSQL, Docker, NextAuth.js, GitLab REST API

APPIGO RETAILER - ECOMMERCE STORE BUILDER (appigo.co/stores)

2024 - Present

With hSenid Mobile Solutions.

Maintain Docker-based builds for the live platform. Release path goes staging then production. Tuned Apache when pages were slow under load. Documented release steps for the team.

Skill Used: Docker, GitLab CI/CD, Apache, Linux, Bash

AIDUCATOR - 3D ELEARNING WITH CHAT TUTORING ([live demo](#))

2024

Led a six-person student team on a year-long project. Shipped a learning platform with ChatGPT tutoring, a 3D model viewer, and video recommendations used by classmates for coursework.

Added Sentry error tracking on project environments so crashes included stack traces for debugging.

Skill Used: React, Node.js, MySQL, ChatGPT API, Model Viewer, Express, Sentry

CERTIFICATION

• React Certification - LinkedIn Learning	2024
• Learning Kubernetes - LinkedIn	2026
• DevOps Foundations: Infrastructure as Code - LinkedIn	2026
• Microsoft Certified: Azure AI Fundamentals (AI-900)	2025
• NASA Space Apps Challenge - Global Nominee	2024
• Tech Triathlon - Rootcode	2024
• Problem Solving International Hackathon 2024 - University of Westminster	2024
• CodeSprint 7.0 - IEEE Computer Society Student Branch Chapter of IIT	2024
• SkillUp - Professional Development Programme - Leo Club of IIT	2023

SKILLS

Hard Skills

Languages: Python, Bash, JavaScript, TypeScript, Java, PHP |

App tooling: React, React Native, Next.js, Node.js, Express.js, FastAPI, JAX-RS |

Integrations: REST APIs, GitLab API, Google Sheets API |

Ops: Docker, Kubernetes, GitLab CI/CD, GitHub Actions, AWS (EC2), Linux, Ansible | **Observability:** Grafana, Sentry |

Version Control: Git, GitHub, GitLab | **Data:** PostgreSQL, MySQL, MongoDB, Prisma |

Also: REST APIs, technical documentation, Tailwind CSS

EXTRACURRICULAR ACTIVITIES

- Volunteered at the Rotary Club Sunshine Games with colleagues, supporting event operations. **2025**
- Participated in IEEEExtreme 18.0 with Dhanuka Perera (24-hour programming contest). **2024**
- Member of the IEEE Student Branch at IIT **2023 - Present**
