

Farhad Lafarie

DEVOPS ENGINEER | CLOUD & AUTOMATION

 [+94 77 635 0933](tel:+94776350933)  Dehiwala 10350, Sri Lanka  farhadlafarie@gmail.com  in/farhad-lafarie  [git/lafarie](https://github.com/git/lafarie)  [portfolio](#)

SUMMARY

Software engineering undergraduate working as a Trainee DevOps Engineer at hSenid Mobile Solutions. Daily work covers GitLab CI/CD, Docker, Kubernetes, Linux servers, and monitoring with Grafana and Sentry. Scripting in Python and Bash. Also builds full-stack applications with Next.js, Node.js, and React Native when required.

EDUCATION

BENG (HONS) SOFTWARE ENGINEERING 2022 - Present

Informatics Institute of Technology affiliated with University of Westminster, UK

GCE ADVANCED LEVEL (A/L) 2021

Completed / Passed

GCE ORDINARY LEVEL (O/L) 2018

Completed / Passed

EXPERIENCE

TRAINEE DEVOPS ENGINEER September 2024 - June 2026

hSenid Mobile Solutions | Colombo, Sri Lanka

Maintain and improve GitLab CI/CD for assigned products. Reduce failed builds, clarify pipeline stages, and shorten release times through better automation.

Automate repeated tasks with Python and Bash. Package and deploy applications with Docker, and Kubernetes on AWS where the team uses it.

Set up and maintain Grafana and Sentry so deploy and runtime errors are visible early.

Maintain the Docker build and release path for appiGo Retailer (staging then production). Improve Apache and server configuration when response times are high.

Skills Used: Docker, Kubernetes, GitLab CI/CD, AWS, Linux, Python, Bash, Grafana, Sentry, Ansible

PROJECTS

STOREDECK - COMMERCE MONOREPO (DEPLOY + DATA PATH) 2026

Two Next.js apps (merchant and public portal) in a Turbo monorepo with Postgres, Prisma multi-tenant shops, and Redis for cache and rate limits. Documented deployment for AWS EC2 (Mumbai) and used soft deletes to keep audit history.

Focus on clean redeploys: separate environments, Turbo pipelines, and deployment documentation the team can follow.

Skill Used: Next.js, Turbo, Prisma, PostgreSQL, Redis, AWS EC2, Docker-friendly setup, CI/CD

TICKET PORTAL - EVENT TICKETING PLATFORM (serendisco.rush.lk) 2025 - 2026

With hSenid Mobile Solutions.

Supported the production ticketing platform for live events, including Docker images, GitLab deploy pipelines, and QR validation. Multiple events used the system with real ticket sales.

Built the React Native door scanner for that stack ([play_store](#)) and published companion apps for Android and iOS.

Skill Used: Next.js, Prisma, PostgreSQL, Docker, GitLab CI/CD, React Native

SHEET NINJA - GITLAB - SHEETS SYNC ([github](#)) 2025

Side project to sync GitLab and Google Sheets without manual copy-paste. Multiple connectors, Docker deploy, setup wizard, and encrypted credentials.

Skill Used: Next.js, TypeScript, Prisma, Docker, GitLab REST API, CI/CD

APPIGO RETAILER - ECOMMERCE STORE BUILDER ([appigo.co/stores](#)) 2024 - Present

With hSenid Mobile Solutions.

Main operations role: Docker builds through GitLab, staging then production. Investigate Apache configuration and load when pages are slow. Document deploy steps for the team.

Skill Used: Docker, GitLab CI/CD, Apache, Linux, Bash

AIDUCATOR - 3D ELEARNING APP ([live demo](#)) 2024

Student team project (six members) with ChatGPT tutoring and a 3D model viewer. Added Sentry on project environments so crashes included stack traces for debugging.

Skill Used: React, Node.js, MySQL, ChatGPT API, Express, Sentry

CERTIFICATION

• React Certification - LinkedIn Learning	2024
• Learning Kubernetes - LinkedIn	2026
• DevOps Foundations: Infrastructure as Code - LinkedIn	2026
• Microsoft Certified: Azure AI Fundamentals (AI-900)	2025
• NASA Space Apps Challenge - Global Nominee	2024
• Tech Triathlon - Rootcode	2024
• Problem Solving International Hackathon 2024 - University of Westminster	2024
• CodeSprint 7.0 - IEEE Computer Society Student Branch Chapter of IIT	2024
• SkillUp - Professional Development Programme - Leo Club of IIT	2023

SKILLS

Hard Skills

Languages: Python, Bash, JavaScript, Java, PHP | **App tooling:** React, React Native, Next.js, Node.js, Express |

Ops: Docker, Kubernetes, Docker Compose, GitLab CI/CD, GitHub Actions, AWS (EC2), Linux, Ansible, Harbor |

Observability: Grafana, Sentry | **Data:** PostgreSQL, MySQL, MongoDB, Prisma |

Also: Git/GitLab workflows, REST APIs, shell automation

EXTRACURRICULAR ACTIVITIES

• Volunteered at the Rotary Club Sunshine Games with colleagues, supporting event operations.	2025
• Participated in IEEEExtreme 18.0 with Dhanuka Perera (24-hour programming contest).	2024
• Member of the IEEE Student Branch at IIT	2023 - Present
